APRIL FIRST FINAL DAYS ON AUTO PLATES

Highway Patrolmen Are Asked to Make Arrests of Those Whose Cars Not Properly Equipped

BUYING IS SLOW

Drivers Licenses Must Also Be Secured, But Are Free to All Who Apply

Next Wednesday, April 1st, is the final day for securing the new 1936 automobile plates and drivers' licenses in Texas.

Cars which are not equipped with the new plates by midnight, April 1st, and drivers who do not have their license by that time will run into plenty of trouble if they operate on the highways.

The drivers' license is free. But each operator of a car or truck in Texas must secure this license and carry it whenever operating a vehicle on the highways.

Business has been slow the past week at the office of Collector R. N. Barnett, but is expected to be very rushing during the closing period.

Highway officers have been advised from Austin to arrest all operators who do not have their cars equipped with the new 1936 plates, and who do not have drivers' licenses. The law was changed two years ago in order to give car owners more time in equipping their vehicles. The state patrol has been advised that the law must be strictly enforced.

Cousins Hall Is Received Friday From Contractor

Acceptance of the addition to Cousins Hall on the part of the Board of Regents for Teachers Colleges was made Friday. Senator R. A. Stuart of Fort Worth and John E. Hill of Amarillo were here for this inspection. Contractor C. S. Lambie of Amarillo has a few changes to make before final approval will be made.

While here the board members approved the transfer of the cottage construction from J. B. Maxey of Lubbock to Mr. Lambie. Maxie was contractor for Stafford Hall and low bidder on the ten cottages, but wishes to give up the contract owing to having so much work on the South Plains. PWA at Fort Worth had already approved the transfer, and the final papers were signed between Lambie and Maxey Friday. Lambie expects to be able to start on both the cottages and the swimming pool by the middle of April.

Excavation for the basement addition to Pioneer Hall will likely be started by the middle of April, stated Dr. J. A. Hill, yesterday, making possible three construction jobs in progress on the campus, in addition to work on the athletic plant.

Red Cross Calls For Aid of Flood Sufferers of East

The Randall County Red Cross Chapter was requested to send $40 to aid flood sufferers in the east and middle western states. Guy Harp, county chairman, sent $20 from the funds to the chapter and requests citizens who wish to make contributions to the fund to leave donations at the postoffice, at The News office, or at the Jarrett Drug Store.

The Red Cross is giving all the aid possible to relieve suffering among those who are stricken from flood losses.

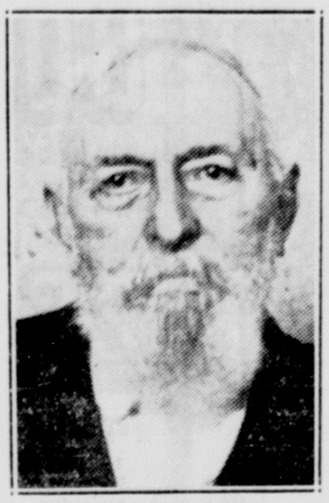
J. D. Hazlewood has returned from Austin where he attended to business last week.

W. F. Heller, First Farmer, Buried Sun.

PIONEER DIES



WILLIAM F. HELLER

Pioneer of County Was First Clerk, Charter Member Presbyterian Church and Lodge

W. F. Heller, the first farmer in Randall county, died at his home in Canyon Saturday morning at 2:30 o'clock. Had he lived three more days he would have reached the age of 91 years. Mr. Heller has been a resident of Randall county for 49 years.

The funeral services were held Sunday afternoon at 2:30 o'clock at the Presbyterian Church conducted by Rev. Chas. L. Dickey. Interment followed in Dreamland Cemetery in charge of the Gribbs-Thompson Funeral Home.

The active pallbearers were Ray Campbell, Lee Foster, Henry Prichard, Lorenzo Wirt, W. A. Warren, and Hud Prichard. Honorary pallbearers were: R. A. Warren, S. V. Wirt, J. C. Pipkin, M. E. Cleavinger, R. E. Baird, R. G. Oldham, L. A. Pierce, and T. J. Prichard.

Surviving is the widow, Mrs. Susan R. Heller, and two brothers, Tom Heller of Mellet, Texas, and Louis Heller of Round Top, Texas.

The long life of Mr. Heller in Randall county has been one packed with thrilling events as this county was developed from the wide open prairies to a section of extensive agricultural operation. To him goes the honor of being the first farmer of the county, dubbed a "nester" by the cattlemen who did not wish to see the plow break the fertile grass lands. With a rifle by his side day and night in order to protect his life and his work stock from those opposed to his activities, Mr. Heller set about in a well ordered manner to make this an agricultural country.

Not only was he the first farmer, but likewise the first clerk of the county after the organization of Randall. He was a charter mem-

Tax Renditions Must Be Signed For Exemptions

Homestead Credit Not Allowed Unless Rendition Made Before First of April

All renditions on State and County Taxes must be in by April first, according to a statement made by R. N. Barnett, Assessor and Collector.

In order for the property owners to claim exemption on homestead property they must sign the rendition blanks. Many people have unavoidably been missed in the county wide assessment that has just been made. All those who have not rendered their property for this year should call at the office of R. N. Barnett at the court house, and do so before April 1, or they will not be allowed the $3,000 exemption for homestead on their taxes.

James Foster of Amarillo Buried Here on Tuesday

James Foster, 77, died Monday at his home in Amarillo. Until 1930 he had lived in Canyon, coming to Randall county 46 years ago.

The body was brought to Canyon Tuesday morning and held at the home of his brother, R. E. Foster, until time for the funeral services at 2:30 o'clock at the Methodist church, of which he was a member.

Rev. J. O. Quattlebaum conducted the service. Interment followed at Dreamland Cemetery directed by the Blackburn-Shaw Funeral Home.

Pallbearers were Henry S. Bishop, L. A. Pierce, Worth A. Jennings, George Jones, Marshall Rockwell and Oscar Smith.

Surviving is one son, Fred J. Foster of Amarillo; three daughters, Mrs. J. C. Gibbs of Clarendon, Mrs. Homer Stewart of Wildorado, and Miss Grace Foster of Amarillo; two brothers, R. E. Foster of Canyon, and George D. Foster of O'Donnell.

Crop Loan Will Be More Lenient But Limit Lower

Requirements for loans to plant spring row crops are more lenient this year than in the past, according to information received here. These loans are being made at the office of County Agent W. H. Upchurch. It is required that a mortgage be given only on the actual land to be planted.

The limit to any one farmer has been lowered to $200, which works a hardship upon farmers in this section who have been cultivating large tracts of land.

Applications are now ready for making these loans.

Mrs. Ruby Murphy and mother, Mrs. M. A. Moses, visited in Panhandle Sunday. Miss Judy Moses returned home with them.

CCC May Not Be Reduced; President Alters Plan

Companies Will Await Further Order; Maier Visited Palo Duro Yesterday

No word has been received here in regard to the countermand of the order of President Roosevelt last week to demobilize a number of CCC camps on April 1st. A Washington dispatch Tuesday stated that the President had changed the order, and that few camps would be closed.

Herbert Maier, regional director of the National Park Service with offices at Oklahoma City, spent yesterday here visiting the Palo Duro State Park. He was of the opinion that the negro company would be either demobilized or moved according to the original order and would be replaced by a white company. Whether or not there will be a change as to the company that will come depends upon orders received from the army headquarters. Company 1828 was ordered last week to move back from the Fuqua ranch where it has been in soil erosion since last fall.

Mr. Maier has an outline of work for the future from Supt. William Anderson, showing the necessity of keeping a CCC Company at Palo Duro indefinitely. Along with other National Park Service directors, Mr. Maier has pronounced the Palo Duro one of the finest possibilities in the Southwest, but the mortgage against the land always causes concern as to the future of the park.

City Park Outline Made Tuesday at Rotary Luncheon

Mrs. Frank R. Phillips and Mrs. T. B. McCarter spoke Tuesday at the Rotary Luncheon on the work being accomplished to build a city park on the land owned by the county south of the public square. Marion Bishir, chairman of the Finance Committee, introduced the speakers.

Mrs. Phillips, chairman of the City Federation of Women's clubs, told of the work accomplished since the Federation was formed in 1912. The present project is the city park movement.

Mrs. McCarter is chairman of the park committee, working with Mrs. Hud Prichard, Mrs. Ray Campbell, Mrs. M. S Bishir, Mrs. F. M. Munson and Mrs. Phillips.

Through the co-operation of the Amarillo park management, the land to be used has been platted, and laid out for walks, trees, shrubbery, lily pond and barbecue pit. All clubs of the city have been asked to co-operate in the movement. The county put the land in shape for the park, and the city commission will furnish water for the trees and flowers. Many individuals have contributed both time and money. Mrs. McCarter stated that volunteer labor to dig the tree holes would be greatly appreciated.

As soon as this park is under way it is planned to start another one south of the Oscar Hunt home, and a third east of the Fronabarger home.

Visitors present Tuesday were: W. S. Norman, Emmett Galloway, C. R. McAfee of Amarillo; Rev. J. O. Quattlebaum of Canyon.

Mrs. Tommie Montfort, Dr. Arlin Turner and a college student left at noon today for Darrouzett where they will judge the Lipscomb County Interscholastic League meet events.

New Officers Named Tuesday C. of C. Work

W. A. Warren Accepts Presidency; Program of Work Will Be Outlined By Directors

New officers for the Chamber of Commerce were elected Tuesday afternoon at a meeting held at the court house. Owing to the storm Monday night the meeting had been postponed.

Officers named for the coming year were:

President—W. A. Warren.
Vice President—Lee Johnson.
Sec'y-Treas.—Levi Cole.

Directors: The three officers, Ed Mickle, Irby Carruth, Robert W. Foster and Delbert Lowes.

Mr. Cole reported on finances as follows: Receipts for the year 1935, $1,332.98; expenses for the year, $676.57; balance cash on hand, $656.41. There have been pledges made of about $200 to be paid this spring. During the year Mr. Cole has mailed out much information regarding the Palo Duro State Park. The greatest need is literature regarding Canyon, calls for which he has been receiving daily.

Mr. Warren took charge of the meeting after the election and expressed great satisfaction for the work which had been accomplished during the past few years. In spite of the retrenchment which had been necessary in all lines of business, the Canyon Chamber of Commerce has continued to function and has accomplished important work for the benefit of the city. Of necessity the program has been limited.

Pledging the new officers to carry on the good work, Mr. Warren urged the hearty co-operation of all citizens. "We shall need your moral as well as financial support during the coming year," stated the new president. "The directors will make a program of activity for the year and announce it within a few days," stated Mr. Warren.

School and City Elections To Be Held Near Future

Two elections of importance to the community will be held in Canyon during the coming ten days.

The first election comes on Saturday, April 4th when two candidates will be selected to serve for three years on the school board of trustees. Tuesday was the last day for filing for a place on the official ballot. T. V. Slack and Alfred Bellah were the only candidates to file for the two places. Both are now serving on the board.

The second election comes on Tuesday, April 7th, when members of the City Commission will be named for the coming two years. The only candidates to file for these places are the present members of the commission, Mayor C. R. Burrow, Commissioners W. S. Amend and W. H. Crain.

Interest usually runs high in the school election, and even though no opposing candidates have announced for the board 500 to 600 votes are usually cast in school elections.

D. R. Gass Badly Injured Yesterday Car Hit by Train

D. R. Gass, pioneer merchant of Hereford and Canyon, was badly injured yesterday morning when his car was hit by a Santa Fe train at Hereford. His hips were crushed when his wrecked car was dragged about 30 yards.

Mr. Gass is 88 years of age and little hope was given for his recovery.

Mrs. N. E. McIntire, a daughter, was called to his bedside immediately, and Mr. McIntire is in Hereford today.

Mr. Gass bought the City Pharmacy 25 years ago, and has always been greatly interested in the affairs of Canyon.

Dr. J. A. Hill accompanied Deputy State Superintendent J. D. Wilson on a school-visiting trip to Hall and Collingsworth counties Monday and Tuesday. Every member of the college faculty is trying to visit some school during this year.

Birthday of News Friday Attended By Large Number

Plant Opened For Inspection and Breakfast Was Served to Visitors on Friday

The 40th anniversary of The Canyon News was celebrated Friday morning when more than 100 business and professional men and women of Canyon inspected the printing plant.

Miss Frances Usery greeted the visitors and conducted the registration. Mrs. N. T. Dickerson directed the visitors through the office supply department and gift store.

All of the machinery in the printing department was in operation. Sewel Cox was in charge of the power cutting machine, punch and perforator. Bill Britton was in charge of the power stitcher and book folder. N. T. Dickerson was in charge of the cylinder press, newspaper folder, and casting room. Hal Collier was in charge of the two job presses. Dan K. Usery was in charge of the two linotypes, casting a slug with the name of each visitor as a souvenir. Nelson Robinson took proofs of the slugs showing the various sizes of type cast on the linotypes. Clyde Warwick directed attention to the display of printed jobs which had recently been turned out by the plant.

Each visitor spent about half an hour in the printing department, after which they were shown the early copies of The Stayer, forerunner of the News, and handed a menu and ticket for breakfast by Miss Olive Schramm.

At the Palace Cafe, Mrs. Clyde Warwick and Mrs. Dan K. Usery were hostesses during the breakfast. Memo pads and blotters were given each guest as they left the cafe.

A beautiful pot plant was brought the News office by the Bellah Grocery and a large basket of roses and carnations was sent by the business and professional men of Canyon.

Visitors at the News office expressed great surprise at the completeness of the printing plant which many of them were viewing

WPA Force Being Cut As Records Being Reviewed

Sixteen men and three women are being dropped from the WPA rolls of the county as their case records are reviewed from the Amarillo office. WPA has ordered a review of all records every three weeks, and all who are able to find outside work are being dropped from the rolls.

Mrs. Irene Sloan has been appointed county welfare director and is able to provide food and clothing for all non-employable who have not been taken on WPA. In the past the county has been forced to care for many of these cases.

It is practically assured that all single men will be sent for work to the Conchos Dam in the near future, according to information received by Mrs. Sloan.

Injunction Against Sale of Liquor Is Granted by Nelson

Judge E. C. Nelson granted an injunction Friday stopping the sale of the liquor which is being held by Sheriff Bob Barnett. This liquor was seized last week by inspectors of the State Liquor Commission as it was being transported from Amarillo to Clovis.

E. F. Fruechte of Austin, attorney for the liquor board, was here yesterday seeking to have the injunction hearing before the regular session of district court in August. Judge Nelson was not in Amarillo when the attorney accompanied Sheriff Barnett to Amarillo.

Until the liquor is disposed of, it is in the custody of Sheriff Barnett.

Wind Does Much Damage Here Sunday and Monday, Continuing Thru Wednesday

RUNNING CONTOURS

Applications Are Being Received For Listing 60,000 Acres In Randall County

Money has not been received to carry on the wind erosion program of listing 60,000 acres which was announced last week. It is expected that the money will be received during the coming week in order to get the program underway.

The most destructive wind of the year hit Monday, following an all day blow Sunday. Fields which had not blown before were moved this week, and it is estimated that in many sections of the Panhandle the wheat was practically wiped out.

Crews which have been running the contour lines for listing were unable to work owing to the high wind.

The temperature dropped Monday night, and the thermometer stood at 26 degrees above Tuesday morning.

The wind started again yesterday, and while not so destructive as the one of Monday, many fields were on the move.

District Agent Parker D. Hanna has assured County Agent W. H. Upchurch that money for listing will be forwarded as soon as received from Washington. Randall county farmers will be ready for the listing when money is received since contour lines are being run as rapidly as the weather permits. In order to secure this money the land owners must agree to do their listing on the contour.

THANKS, OLIN

It would be a hard hearted old cuss who did not appreciate the kind words written by one of the boys in whom he had so much interest and with whom he had been associated for several years. Olin E. Hinkle, editor of the Pampa Daily News, wrote the following for the Sunday edition of his paper:

AN APPRECIATION

For many years, the Canyon News has been known as one of the best printed, readable newspapers in the Southwest, produced in one of Texas' best-equipped print shops.

Little known, however, is the fact that Editor Clyde W. Warwick, owner and publisher of the paper, has been the inspiration and, in many cases, financial refuge of many students who otherwise would have had to shorten their education. For many years he has been helping students who impressed him as worthy. Some of these were doubly fortunate in that, aspiring to be newspapermen, they had experience under his direction on the Canyon News. As a final gesture of confidence in his "adopted" youngsters, he enabled a number of them to attend the University of Missouri, to which he has sent so many pupils that the school will honor him this spring by presenting him in an address to its student.

The editor of the Pampa Daily News is a "graduate" of the "Canyon News School of Journalism." No prouder title has he ever possessed, and no formal education has he received which he ranks higher than that experience with C. W. Warwick, "Old Man" Usery—who taught him how to tame "type lice"—and the rest of the Canyon News staff.

Memory's pages, bear many happy recollections of days in the Warwick "school"—of studying the mysteries of the Linotype, of feeling the thrill of at last "working on a newspaper," even if there was quite a bit of sweeping floors and mailing heavy sacks of wrapped papers; of learning the type cases, how to read type "backwards" as easily as to read the printed page, how to lock up the forms—which is more complicated than it sounds—; of the thrill of writing the news, "making up the pages," printing and folding and, one proud day, getting out the paper alone, editorially; of the thrill of operating newly received machinery—and the feeling of consternation when the wire stitcher broke on a crucial book-binding job—; or the superb sense of getting somewhere in helping to erect a new Optimus press, even if Frank Dyer did a Tom Sawyer on us by stressing the importance of handing up the pieces; and of pleasure as college days ended and, thanks again to Mr. Warwick, of journeying to the school of the late Walter Williams, best known of all journalism teachers.

So, after 26 years with the Canyon News, Editor Warwick should be known as a benefactor of youth as well as A-1 publisher. May his tribe increase!

What is to become of the state parks which have been started in Texas? The Hereford park has some good improvements, but no money to keep up the improvements; the Palisades has a good concession house, but little else; the Lubbock park is only about half completed; if work was stopped today on the Palo Duro State Park, little service could be maintained for the public which may be expected in a state park. So far, the people of the state are not "park minded." The great open spaces of Texas has not contributed to the feeling of necessity for play grounds. But with the establishment of these parks, the people have caught the vision of a park system. Unfortunately, a real park system costs much money for upkeep. The National Park Service is doing a most notable thing in building parks in Texas with CCC labor. After the parks are completed comes the problem of finding funds to operate these playgrounds.

A lot of good wheat was ruined in Randall county Monday as the result of non-resident and city farming. There are many who believe that they can plant their wheat in the fall and forget about it until harvest time. This class of farmers are going broke very rapidly, but in years like 1935 and 1936, they are contributing to the destruction of much valuable land by the continued blowing. One of the largest wheat farmers in this section stated Tuesday that he had lost practically no wheat, although it was damaged by the drifting sand. His men were out fighting Sunday and Monday to keep the land from blowing away. To save the Panhandle soil will require the everlasting fight upon the part of all farmers while the drought continues over the Southwest.

The program outlined for the summer session of W. T. this year is one of the finest in the history of the institution. Outside speakers, men and women who have accomplished in their fields of activity, have accepted assignments for one or more lectures. As pointed out last week by The News in printing a story of this program, it is worthy of the interest of each and every citizen of Canyon to the extent that all of us go to the trouble to write to friends advising them of this wonderful program, and inviting them here for the summer, or to attend particular features of the session. The 1936 summer session of W. T. should be a real history making event so far as interest and attendance is concerned.

Floods in the east and middle west; dust storm in the west and southwest; Old Mother Nature is all out of joint in distributing the snows and rains. However, those who have been almost choked down with dust the past week prefer this to being washed away by flood waters.

War in Europe is less likely today than seemed so certain during the past two weeks. Sober thinking seems to have prevailed for the present at least, when the butchery of war was considered. Of all the foolishness that goes on in the world, certainly war is the supreme folly.

Just another week in which cars may be provided with the 1936 license plates. Cars may not be operated which are not equipped with the new plates after midnight of April 1st. There has been a very small demand for plates during this month, but a big rush is expected during the final days. It will certainly be a great convenience to the collector's office force if Canyon citizens will get their plates this week and not crowd out the farmers who will come in the first of next week.

Now comes the prediction that Mrs. Ferguson will again be a candidate for Governor, and Senator Roy Sanderson will retire from the race. For 20 years the people of Texas have been embroiled over Fergusonism. The master politician of them all, James E. Ferguson, finds it hard to retire and may bob up in the campaign this year. Tom Hunter is another potential candidate, judging from the letters he has been sending out.

The Townsendites talk of putting out a candidate against Congressman Marvin Jones because he cannot see merit to their plan of giving every old person $200 per month. Of course no one with the slightest political sense would accept the assignment of beating Marvin Jones, especially with nothing more than the Townsend plan as a platform.

If Landon of Kansas can satisfy the eastern financiers that he is the safe candidate, he will be the Republican nominee. Otherwise, a last minute dark horse will be brought out. The money interests are going to do their best to defeat Roosevelt, but they must be sure that their man can be handled from Wall Street.

Fifty farmers in Randall county have made application for loans through the Resettlement Administration located in Amarillo. The loans are slowly being perfected. This organization was set up under the soil conservation law, and is the largest governmental agency in this section.

A test will be made in the courts of the Texas pension law, according to a letter received from Tom Hunter. Very few legislative or constitutional acts escape the test of constitutionality when large sums of money are involved.

Citizens of Dallas threaten to boycott business firms who clutter up the city with bills. It is impossible to keep a town clean where bills are scattered around the streets and over the lawns.

The campaign of hate which seems to be getting well under way within the Republican ranks will work to the interest of the Democratic party.

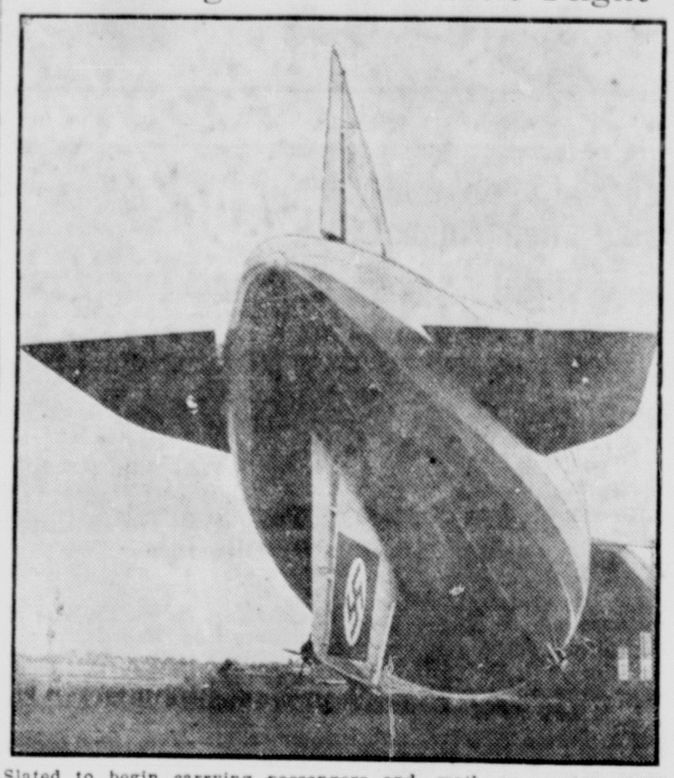
Test Dirigible for Atlantic Flight



Slated to begin carrying passengers and mail on a temporary schedule between Germany and the United States late in April or early in May, the Von Hindenburg (LZ-129), is shown here being edged into her hangar at Friedrichshafen, Germany, after a successful trial flight. The great German airship—largest in the world—is 812 feet long, has an 84-mile-an-hour top speed and an 8000-mile range without refueling; will accommodate a crew of 35 and 50 passengers in addition to 10 tons of mail and freight; and will make the crossing in 2½ days—hardly more than half the time required by the speediest ocean liners.

He Gives 14 Reasons for Advertising in the Home Town Newspaper

Minneapolis, Minn. — Fourteen reasons were pointed out this week by Prof. Thomas F. Barnhart of the University of Minnesota to show why newspapers continued as "tops" in advertising media during 1935.

1—Newspaper reading is a universal habit. Newspaper advertising, therefore, reached virtually all who read and buy.

2—Newspaper advertisements can always be seen by the reader.

3—The Newspaper advertisement, as part of the complete paper, goes into the home as a welcome guest.

4—The newspaper advertisement can have as much reader interest and news value as the news item.

5—The amount of text used in newspaper advertisements is dependent only upon the size of space.

6—Newspaper advertising is flexible.

7—Newspaper advertising is quickly controlled.

8—Newspaper advertising may be adjusted to different conditions.

9—Newspaper advertising enables manufacturers and dealers to state where their products may be bought.

10—Newspaper advertising is inexpensive. Merchants have learned that it covers more families for less money than any other form of advertising.

12—Newspaper circulation is known and is comparatively unaffected by daily change.

13—Nearly all of a newspaper's circulation is concentrated in its own market.

14—Newspaper advertising reduces selling costs because it entails no waste of circulation. This helps reduce costs for the consumer.

"Newspaper advertising," says Prof. Barnhart, "builds confidence and good will, attracts new customers, increases sales, and stabilizes merchandise, methods and prices."

Don't cuss when your hat blows off. You'll feel better ff you laugh with the rest of them.

CANYON

Is a Mighty Good Place to Trade!

THERE are lots of Good Towns and some Bad Ones, perhaps, owing to the point of view. However, we are not knocking any town on earth—but simply BOOSTING one of them—your home town and mine—CANYON. Co-operation among the residents of a community is what counts for most in building a town of which all may well feel proud. The men who are devoting their every effort and investing both time and money to provide a home-town market where you can come and do your buying and selling seek your co-operation.

They ask only that when you want anything which they carry that you TRY first to buy it at home. If the desired merchandise cannot be obtained in Canyon, than go elsewhere. But in fairness to yourself, your home community, and to the men who are working to make this a town in which you may be happy to reside, buy it here, if possible. Give the home merchants a chance. It will always pay.

When times are good, the home-town merchants rejoice with you—and they stand by you when times are hard. They are friends who want to give you a full dollar's worth for every dollar spent with them. That's why we say—"BUY IT IN CANYON."

Joe B. Webb Will Bring Circus For 2 Shows Saturday

Joe B. Webb's Circus, Menagerie and Wild West in coming to Canyon on Saturday, March 28. This is one of the largest circuses traveling.

The circus will arrive in Canyon in three sections. First will come the Flying Squadron, which will consist of horses, horse tents and cookhouse. Then comes the remainder of the show in the order needed for the erection. Eighteen minutes, on an average, after the first wagon is pulled on the lot, the horse tent is up, horses eating, and smoke and savory smells coming from the cookhouse in which the circus people will shortly eat. Then up starts the Big Top, menagerie and sideshow. There are no loud words, no profanity, each man knows what to do and how to do it, and almost before you can look around, a small city in itself has been erected and ready to carry on business the same as your own town.

As a special added attraction this season, Joe B. Webb's Circus presents Betsy Ross, "The Texas Tomboy," in person, and her entire company of Wild West enteretainers. This little miss hails from far down on Texas' borderland. At an early age she showed such an aptitude in rodeo events such as trick riding, trick roping, bronc riding, bulldoging, sharpshooting, that she soon earned the title of "America's youngest rodeo contestant."

Joe B. Webb, popular manager and owner, has assembled a great show, according to all reports reaching here, and it is known as "America's Cleanest Circus."

This circus is under the auspices of the American Legion Charity Fund.

DUSTERS AREN'T BAD

Yes, dusty weather is simply terrible, especially when the dust gets so dense in the school rooms that one can hardly identify his neighbor.

Dust falls so thick on the books and desks that one could easily write his name on them. And our skin gets so gritty that we feel it would take more than one good bath of soap and water to get us clean. Yes, white shirts and dresses go well with this kind of weather. But why should we be forever finding fault with our country? Have you heard of the deaths which have been caused by floods? All over the eastern part of the United States rivers are flooding, and many homes and lives have been destroyed.

Until the headlines of our papers carry streamers of hundreds of deaths each day, why should we complain of our Panhandle?

PING-PONG DAYS

When the rain falls hard,
And the ground gets wet,
So kids have to stay
Inside and fret,
It's a beautiful day—for ping-pong.

When the wind gets up,
And the sand flies thick,
And it's so dark
It makes you sick,
It's a beautiful day—for ping-pong.

When the winter wind blows
And brings cold snow
That gets so deep
That cars won't go,
It's a beautiful day—for ping-pong.

When the rain falls hard,
Or the sand flies thick,
Or the cold snow freezes,
As hard as a brick,
Those are days—for ping-pong.

CAL FARLEY'S CIRCUS PLAYS HERE MAR. 17

RECORD CROWD SEES FAMED "DUTCH" MANTELL, THE "LADIES MAN"

By Sherman Higdon

If you missed Cal Farley's Flying Dutchman Circus last Tuesday night, you missed a splendid performance. The auditorium was filled, including the balcony, and children were wildly enthusiastic over the prospect of seeing such an unusual program. The Circus probably brought more notables to C. H. S. at once than ever before, as such men as John McCarty, editor of the Amarillo News-Globe, Travis Shaw, of West Texas State Teacher College, "Dutch" Mantell, with the Circus, Dr. Vick of Amarillo, and Judge Henry Bishop were present to ogle the goings-on. The total amount of the gate receipts, approximately $118, went to purchase more band uniforms for the C. H. S. band. Several donations were presented, one of which amounted to $13, given by the American Legion Auxiliary, and another $10 from Mayor C. R. Burrow.

Farley Announces

With Cal Farley as principal announcer, the program started at full speed. Killing 23 birds with one stone, I might say that each act was individually excellent. These acts were: an overgrown piano player, a boy singer, 5-year-old Bobby Vicks, who told a long story in an exceptionally good way, two boxing matches, local talent in the form of the T-Anchor Cowboys who sang and played two numbers at two different times, and some feminine talent. This consisted of a girl singer, a small tap-dancer who sang and played on a ukelele, and a young acrobat. "Uncle Dudley" and Cecil Gunn, amateur program announcer at the Olympic Theatre here, presented several numbers on their guitars with vocal refrains. The Maverick Club quartet sang four songs, after which the Amateur part of the performance was broken by the entrance of "Dutch" Mantell, the famous Flying Dutchman agent. Puffing on a stogie, he bumped heads with Cal in their verbal fracas, then showed off his vocal ability by singing "Wild Irish Rose," "Let Me Call You Sweetheart," and a farewell song, in a very entertaining way. He also demonstrated a double-action, single-stroke Alaskan nose-cleaner. Shirley Temple was impersonated in a hula-hula dance.

Stevenson Most Beautiful

Then the beauty contest was held. Mr. R. G. Stevenson, band director of C. H. S., Travis Shaw, and "Dutch" Mantell competed to get the one-cent votes which came in quickly. Mr. Stevenson won the contest, the returns of which went to the band uniform fund. A buxom lady, "Lady Esther," caused much excitement as she danced and pranced around the stage in a very unlady-like manner. She was also in the final act which consisted of a band composed of a Jew's harp, guitar, violin, harmonica, piano, and her own tin waste-basket.

In a grand finale, the troupe gathered on the stage, and together with the audience, sang "The Eyes of Texas are Upon You." Cal Farley bade good-bye to an appreciative audience which had witnessed a most excellent program of entertainment.

JOE FRANK RETURNS TO SCHOOL AFTER ILLNESS

A stranger has come back to school, at least, nearly a stranger. Joe Frank has come back after being out a week with blood poisoning in his right hand.

The trouble started when Joe pumped up two tires on his car and made a bruise in the palm of his right hand. This bruise was lanced, but complications developed and blood poisoning set in. After a week in bed Joe is back at school, and, while not able to write, is well enough to go on with his school work.

Mr. and Mrs. J. A. Brewer and Fred Brewer of Stamford, Texas, visited with Mr. and Mrs. Lee Foster Saturday and Sunday. Both families spent Sunday afternoon in Dalhart visiting friends.

C. H. S. Debaters Split With Tulia

Tulia girls and boys visited the Canyon debate club last Friday night.

Mildred Shuman and Lillian Chambers, Canyon girls, held up the affirmative side of the questions and won the debate.

The Canyon boys, Hal Gamble and Melvin Calliham, lost to the Tulia boys when they debated the negative.

Mr. S. B. Orton was the judge for the debate.

Mr. Gerald Brown, debate coach, and the Canyon debaters will go to Tulia tonight.

The question for debate this year is, "Resolved: That the Government should control Cotton Production."

A PSALM OF MARCH

Texas, Oh Texas,
What have you done today
To make the sun show not its face
And blow our farms away?

Two thousand years ago one day
It happened to please God.
Do we deserve thy darkness too?
We pray thee, spare thy rod.

Almighty God, we do repent
In gravel, dirt, and sand
That travels far from distant fields
To mar our native land.

Why does the ground on which we walk
Rise up against us now?
We pray dear God deliver us
While we before thee bow.
—Sewel Cox.

Mrs. Greenfield Dies at 4 O'clock Thursday Morning

Mrs. J. E. Greenfield, 59 years of age, died Thursday morning at 4 o'clock at the Northwest Texas Hospital in Amarillo where she had been taken for treatment.

Mrs. Greenfield had been ill for three months before her death. Mr. Greenfield died two years ago last February. Mr. and Mrs. Greenfield were pioneer residents of Canyon. Their children have been educated in the Canyon High School and West Texas State Teachers College.

Funeral services were held Friday afternoon at 3 o'clock in the Methodist Church. Rev. J. O. Quattlebaum and Rev. C. E. Jameson were in charge of the services. The burial was in Dreamland Cemetery.

By Leffel

Sports have to be cut short these dusty days when the football boys cannot have practice regularly, or the track men have their daily workouts in the spring dust showers that we have been having.

Coach C. C. Jones had the future football teams out for practice three days last week. Eighteen husky lads reported for practice, and twenty-five suits have been checked out for spring training. Light blocking, tackling, and pass receiving were the main features of the workouts. Just among us three, Coach Jones, Sports Shorts, and Leffel think that Canyon High School will have a winning team next fall.

Girls intramurals seem to be the high lights for the girls and a few of the boys. The sophomores edged their way into the finals by over-scorinng the seventh grade by Wednesday afternoon. The juniors and seventh grade will play the semi-final game to determine who will meet the sophomores in the final game.

This is unofficial, but it is rumored that Jack Taylor and Wesley Cox were to referee the final girls' intramural game.

Sewel Cox, a two-year letterman in track, is going to throw the "Shot put" this season. He is the best prospect for track this season.

Wesley Cox, Lavert Avent, Leslie Lisle, and Sewel Cox have been training for boxing and wrestling. The new mat that the school purchased this spring has been in use every afternoon.

All the marble players seem to have hibernated and their marble grounds have blown away;that's hard luck.

CLASSES STUDY TEXAS

The two World History classes under the supervision of Miss Jewell Foster studied Texas history last Friday.

Governor Allred asked all the schools of Texas to study some phase of Texas history during the last week. The World History classes studied the different types of flags that have been used in the developing of history in Texas. Special reports pertaining to the history of Texas in general were given by Mary Charlotte Word, Pauline Harris, and Henry Campbell.

Mary Elizabeth Thompson of Amarillo spent Saturday and Sunday with Gladys Hutton and Betty Ruth Solomon.

"He Never Had a Chance"—Poor Man

He walked into Canyon High School building. He walked to Miss Grace Clark's room. Miss Clark continued studying, not paying any attention to him. He walked over to Miss Clark's desk. Miss Clark continued studying the book.

"Well," he said, "If you are busy I will leave."

"I shall probably be busy all afternoon," she replied.

He walked down the hall to Miss Lois Goodrich's room. She was leaving in a hurry. He started introducing himself. She explained she must hurry over to the gymnasium to see the ball game.

Mr. I. B. Carruth foresaw his coming and locked his door.

The poor salesman didn't have a chance.

Sanders Coaches Infant Ball Club

A boys' baseball team has been organized for first time in Canyon High School, and practice under the supervision of Milton Sanders has been under way for three weeks.

The team will play various other teams from different towns during the spring. Many boys have been practicing at noon and after school.

Darwin Dobbs and Odell Miller are pitchers, and Woodrow Hicks will probably be catcher. Other players will be assigned positions later on in the season.

DID YOU KNOW?

That 35% of the students in Canyon High School were born in Randall County?

That 32% of the teachers in Canyon Public Schools were graduated from Canyon High School?

That three generations living in Canyon have attended Canyon Public School: Mrs. E. D. Harrell, Mr. Newton Harrell, and Shirley Harrell, 4A?

That Governor James V. Allred worked on the railroad when it was extended from Canyon west?

That R. E. Baird is the oldest living settler in Randall County?

JONES TEACHES AGAIN AFTER SHORT ILLNESS

Coach Cleveland Jones was out of school last Thursday and Friday because of a boil on his temple.

Mrs. I. B. Carruth substituted for Coach Jones in his classes. There was no football practice on the days that Mr. Jones was absent. He returned to school Monday and resumed his class work and football practice.

7A And 7B Have Scout Program

Ruffell Fogerson enrolled in 5A Monday morning. He is the son of Mr. and Mrs. Herman Fogerson, former students of Canyon High School, recently moved here from Denver, Colorado.

Mabry Vandergriff, sophomore, and Vaughn Vandergriff, seventh grade, have moved to Weatherford, Texas, and will attend Weatherford schools.

Because of the terrible sand storm Monday and another one reported on its way from the north, the school buses ran at 2:30 o'clock Monday afternoon.

Mrs. G. W. Cox, who was taken to the Scott and White Sanitarium in Temple, Texas, March 16, underwent an operation last Monday and is reported as doing as well as can be expected.

The 4B group closed its unit of work on Holland with a picture show, of their own making. All the grades were invited to attend the show. The room was decorated with friezes, tulips, and free hand drawings depicting life in Holland. On Tuesday afternoon the parents were invited to the program which consisted of talks and a number of songs and the picture show.

The 7A and 7B home rooms had a scout program Friday conducted by Vaughn Vandergriff. The program consisted of a scout talk, by Pauline Spencer. Raynelle Rigsby showed the group how to tie knots. Anna Ruth Schmitz, Pauline Spencer, Raynelle Rigsby, and Dorothy Strain sang "Grasshoppers Three," and "Roll Along Covered Wagon."

Classes Vie For Intramural Honors

Girls Intramurals are still under way with three teams left in the tournament: the undefeated sophomores, the juniors, and the seventh grade.

Last week the seniors and freshmen were eliminated from the tournament. The seniors were defeated by the seventh grade and juniors, while the sophomores and seniors tossed the freshmen out of the tourney.

The seventh grade has been defeated once by the sophomores, while the juniors suffered a loss to the seventh grade by one point. The sophomores are the only undefeated team in the tournament and thus are the favorites up to date.

Students Journey To Grocery Store

Class 4B with their sponsor, Mrs. Isabel Cousins, journeyed to Bellah's Grocery Store, March 18, where they met Jack Frost, salesman for 35 years for the Waples Platter Company, who acted as their personal guide through the store.

In his comments on different foods and where they grow, he brought to the students the idea of dependence of nations through the one medium, food.

Jack Frost served the students 12 different varieties of peas, beans, spaghetti, and apple butter with crackers. On leaving, each student was presented with an all-day-sucker, and a box of cookies. The students were given six cans of food for their play grocery store which will be constructed in their school room along with their next unit on the grocery store.

Books In Review

"Invincible Louisa," by Cornelia Meigs is one of the many interesting biographies in the library

It is the life story of Louisa May Alcott, one of the world's most beloved authors. This book relates the many interesting events of her life, the homes she lived in, her character, some of her books, her hardships, and her famous friends.

At a very early age she began writing stories and plays. She and her three sisters spent many happy hours dramatizing these plays in the loft.

Later, she was discouraged many times, but she never gave up—or in. Finally she became successful, and her books are widely read and liked.

Services were held at the family residence Monday at 3 o'clock.

THE THOUGHT OF THE WEEK

"To brag little, to lose well,
To crow gently if in luck,
To pay up, to own up,
To shut up if beaten,
Are the virtues of a sporting man."—Oliver Wendell Holmes.

Think it over and you'll discover that you have as much good luck as bad luck but you give your attention to the bad luck.

While you are at it, it might be well to remember as you enter a new year that the Door of Hope swings both ways.

The rarest of all rare creatures is the man who gets a lot of money without letting a lot of money get him.

When you hear a man continually knocking Canyon, don't argue with him. Just ask him what is keeping him from getting out.

When a man gets grouchy, he ought to go out to the woods and live alone.

STUDENTS SET APRIL 10 FOR STUNT NIGHT

VARIOUS CLASSES NOMINATE CANDIDATES FOR C. H. S. KING AND QUEEN

Time marches on! Again the time approaches for the annual stunt night (which has been postponed from April 3 to 10) with the crowning of the high school queen. This is the fourth consecutive annual Stunt Night which was begun in the spring of 1933 to replace carnival night. The purpose of Stunt Night is to make money for the Senior Class, with which they buy a gift for the school.

Candidates for king and queen were elected by the classes last Wednesday. The seniors elected Fay Plaster and Overton Donnell; juniors, Mavis Harden and Forest Hill; sophomores, Martha Jo Newlin and Clarence Zachery; freshmen, Rena Beth Bellah and James Pope.

The objective of Stunt Night is to furnish entertaining stunts, at the end of which the class making the most money will get its king and queen crowned.

Clubs and different organizations have been calling meetings to discuss plans for stunts. Last year the Press Club won first; Home Economics Club, second; Pep Squad, third.

Football Practice Starts March 9

Spring football started a week ago Monday. Although they came out only two days last week, they got well under way, but only 16 boys were out.

Coach Cleveland Jones, in assembly, urged more boys to come out for practice. He also stated that they would come out only when the weather permitted.

They would have done more work, but for the illness of Coach Jones, who was absent from school Thursday and Friday.

Classes Dramatize Narrative Poems

The two Sophomore English Classes, supervised by Miss Mattie Jordan, have finished a unit on narrative poems. They dramatized "The Diverting History of John Gilpin," by William Cowper, in the form of a pantomime.

In the first period class, Clarence Zachery was John Gilpin, and his wife was Lillian Chambers. In the afternoon class, Sam Robinson was John Gilpin and Martha Jo Newlin was his wife.

The plays were given before other members of the classes, in the high school auditorium.

Miss Ethel Rowland, typing teacher, visited in Amarillo Sunday. She plans to spend this week-end in Dalhart with her parents.

Marjorie Wilkinson attended the Annual District Meeting of the Christian Endeavor held in Amarillo Friday, Saturday, and Sunday.

Joe Fortenberry Is Named All-American Basketball Center

Joe Fortenberry of Happy, former W. T. basketball star, has been named All-American center for the second straight year. Joe is a member of the McPherson Globe Oilers, winners of the National A. A. U. tournament at Denver which ended Saturday night.

Joe was a star center on the W. T. basketball team three years ago, and is playing his second season with the Oilers. The team was scheduled to play against the Buffs on the home floor before the tournament, but this game had to be cancelled.

George Colvin of W. T., placed last year as All-American, did not get to perform at Denver during the tournament owing to a severe case of mumps after the Simmins games, and hence gained no recognition this year.

ber of the local Presbyterian church, and he had likewise been a charter member of the Presbyterian church in Amarillo which had previously been organized. In his church he served in many capacities until old age prohibited him from attending regularly. Likewise he was an organizer and a charter member of the Masonic lodge in Canyon.

During the early years as a farmer, experimentation was his part as he planted hundreds of trees along the banks of the Tierra Blanca, worked with a vineyard, and tried out various types of crops. Only until advanced age caused him to relinquish farming duties did he cease to experiment with things that would grow in this section. A few years ago he traded the land on which he had filed for a home close in town which was his final residence.

Mr. Heller was born in Fayette County, Texas, March 24, 1845. When the Civil War started he volunteered and served for 3 years and 9 months in Colonel Green's Texas brigade before being wounded and left for dead on a Louisiana battlefield. Deafness resulted from the wound for the remainder of his life.

Coming to the Panhandle in 1886, Mr. Heller engaged in freighting from Colorado City, 225 miles away, and Wichita Falls, 250 miles away. The old T-Anchor headquarters had the only buildings in this section when Mr. Heller arrived, and mail was brought from Tascosa.

Mr. Heller and Miss Susan Roberts of Jefferson City, Missouri, were united in marriage in September, 1887, and were constant companions, sharing the hardships, trials and joys of the frontier life. Mrs. Heller is a sister of Mrs. John Knight of this city.

Throughout his long and eventful life, Mr. Heller was always to be found on the side of right and righteousness, a progressive builder of schools, churches, and community life. He fought fearlessly for the things which he believed to be right.
